

# ALEX MASSON

## Web Developer / Software Engineer

### Profile

My name is Alex Masson, and I am a professional Web Developer and Software Engineer. I am also a student at Kansas State University pursuing a degree in Computer Engineering.

### Skills

### Work Experience

#### Collegian Media Group / Web Developer | Head of Technology

October 2017 / Present

Web Developer for the student publications department at Kansas State University. Created and developed websites for each of the publications, and multiple colleges and companies around campus.

#### HitchPin LLC. / Software Engineer | Head of UI/UX design

January 2018 / Present

Worked on developing and creating an app for a Manhattan based start-up. Lead multiple projects on creating and developing a responsive and fresh UI design that would simple for the user. Also lead the creation of secure mobile payments.

#### Freelance Web Developer

October 2016 / Present

Worked as freelance Web Developer to help my parents make ends meet. Created and redesigned multiple websites for teachers, friends, and colleagues throughout high school.

#### IEEE/ Web Developer | KSU Student Chapter

January 2018 / Present

Created and developing a website for the Kansas State University chapter of the International order of Electrical and Electronics Engineer Society. The website is used as a focal point to draw in new members into the society.
